Pilot & ECR springboard awards - Round 2

Salman Siddiqui

BRC Resp theme: Co theme lead

Scope

1. Awards are designed to support those **that have not yet received any BRC support**

2. **Notable:** applicants that hold a **primary contract with the trust both RBH-GSTT or ICHT are eligible***

- **Two types of award**
- *BRC pilot award £25,000*
- *ECR springboard award £50,000*
- **12 months max:** *earliest start 1/10/2024*
- **Launch:** 1st May 2024
- **Close:** 14th June 2024

* See conditions

NIHR | Imperial Biomedical Research Centre

What are we looking for?

- **Pilot awards:** *Pretty much anyone doing research **within the NIHR remit, 'seed funding'** that will lead to successful follow-on funding ideally*

- **Early career springboard:** *Early career researchers, yet to receive major funding or BRC support - **plan to submit substantive fellowships***

Alignment with the main objectives of the theme

Cross Cutting Themes

Research Programmes

Drivers, determinants and early detection

Acute respiratory infections and Exacerbation Science

Precision medicine and novel therapeutics

Early diagnosis

Precision medicine

Digital health

Convergence science

Public/patient engagement

Eligibility: both awards

1. **Applicants are invited from Imperial College Healthcare NHS Trust (ICHT) and the Royal Brompton Hospital** - subject to the research proposal being aligned to one of the core BRC sub-themes

2. **ICHT/RBH lead applicants <u>must</u> hold an honorary contract with Imperial College <u>OR</u> apply with a substantive college employee as co-applicant**

3. Non-clinical applicants <u>**must**</u> demonstrate evidence that their proposal will lead to research that has/will have a <u>**direct**</u> patient benefit

4. **Cross cutting BRC proposal with other themes (<u>https://imperialbrc.nihr.ac.uk/</u>) are encouraged** – with applicants expected to have co-developed their proposal (and discuss co-funding) with a second theme

Additional eligibility: ECR Springboard awards

- **Applicants would typically be expected to be at the following career stages**: academic clinical lecturer, advanced fellow, lecturer (clinical or non-clinical), allied health care professional or early NHS consultant stage

- Applicants should **not** have received major funding (>£100,000) from a UKRI or NIHR funder.

- Applicants should **not** have received funding from the Imperial NIHR BRC for a previous pilot award.

- Applicants should **demonstrate how the funding will be used to bridge successful fellowship applications and the timescales for fellowship** applications.

How will we score your application?

- Rationale and background - sound hypothesis?

- Project plan & deliverables, risks/mitigation

- Operational readiness

- Potential for Impact/NIHR Remit/likely secure follow-on funding

- Resources and value for money

- ECR awards: previous high impact papers, trajectory and likelihood of securing fellowship funding?

NIHR | Imperial Biomedical Research Centre

PPIE and your application

- All applications will be scored by our PPIE group following initial triage

7) Benefit to patients (i.e. how have you identified that this research question is a priority/of benefit for patients/the public) and the NHS (Max 150 words). *Please write this section in lay language as it will be reviewed by public reviewers.*

8) What plans do you have to involve and engage with members of the public as part of this research project proposal? (max. 300 words). Please write this section in lay language as it will be reviewed by public reviewers. Please see guidance on Public involvement for grant applications
Please see the *Public Involvement Resource Hub* for guidance or contact the Imperial Patient Experience Research Centre on *publicinvolvement@imperial.ac.uk*

Patient Experience Research Centre
About us   COVID-19   Public Involvement   Research   Publications   Meet the team   Get in touch

Promoting participatory approaches to improving healthcare and biomedical research

For further advice **please contact PERC**
publicinvolvement@imperial.ac.uk
